All children and young people who come to Trinity Grammar School have a right to feel and be safe. We are committed to providing a child safe and child friendly environment, where children and young people are safe and feel safe and can actively participate in decisions that affect their lives.

We have **zero tolerance** for child abuse and other harm and are committed to acting in students' best interests and keeping them safe from harm.

The School regards its child safety responsibilities with the utmost importance and, as such, is committed to providing the necessary resources to ensure compliance with all relevant child protection laws and regulations and maintaining a child safe culture.

Statement of Commitment to Child Safety and Wellbeing

The School is committed to the safety and wellbeing of all children and young people. Child safety is at the forefront of all decision-making at the School.

The School's approach to creating and maintaining a child safe school environment is guided by our mission and values which are published on the School's website.

The School's commitment to child safety is based on the following child safety principles:

- all children have the right to be safe and to feel safe at school;
- the safety and wellbeing of children is paramount;
- child safety is everyone's responsibility;
- the safety of children is dependent upon the existence of a child safe culture;
- child safety awareness is openly discussed and promoted within the school community, which includes relevant training for stakeholders.

The diverse needs of students are respected, including students who are Aboriginal, students with a disability, students from culturally and linguistically diverse backgrounds, students who are unable to live at home, international students and LGBTQI+ students.

Children and Young People's Rights to Safety, Information and Participation

Trinity Grammar School is a child safe and child-centred environment that is friendly and welcoming to all children and young people. We actively seek to include students in decisions that affect them.

This includes decisions about organisational planning, delivery of services, management of facilities, and classroom learning and assessment environments.

We ensure students know about their rights to safety, information and participation. We recognise the importance of friendships and support from peers.

We actively seek to understand what makes students feel safe in our organisation and regularly communicate with students about what they can do if they feel unsafe.

Our Child Safety program: Embedding a culture of Child Safety

Our Child Safety program is one of the strategies employed by Trinity Grammar School to embed a culture of child safety at the School. The School is committed to the effective implementation of our Child Safety program and ensuring that it is appropriately reviewed and updated and that staff, contractors, visitors and volunteers receive regular training on the program. This includes new staff receiving competency-based child safe training as part of their induction and onboarding.

We adopt a risk management approach by identifying key risk indicators and assessing child safety risks based on a range of factors including the nature of our School's activities, physical and online environments and the characteristics of the student body.

Our Child Safety program relates to all aspects of child safety and protecting students from abuse or other harm and establishes work systems, practices, policies and procedures to create and maintain a child safe environment and culture at the School.

The Child Safety program includes policies and procedures that clearly explain processes for:

- responding to and reporting child safety incidents;
- recruiting and screening staff, volunteers and contractors;
- reporting to external agencies;
- ensuring compliance with relevant laws, regulations and standards;
- training requirements and expectations for all stakeholders;
- pastoral care strategies designed to empower students and keep them safe;
- strategies to encourage diversity, inclusion and belonging;
- clear information for what constitutes child abuse and grooming.

Responding to and reporting child safety incidents or concerns to the school

Our Child Safety program provides detailed guidance for Council members, staff, volunteers and contractors on how to identify key indicators of child abuse and other harm and how to report child safety incidents or concerns internally at the School. It also contains detailed procedures with respect to the reporting of child safety incidents or concerns to relevant external authorities.

We recognise that some individuals, particularly children, face additional vulnerabilities to child abuse and other harm, as well as additional barriers to disclosing child safety incidents or concerns.

Our Child Safety program provides guidance on identifying additional vulnerabilities and barriers and contains strategies for supporting these individuals to participate in the School community and enabling them to disclose child safety incidents or concerns to the School.

Child Safety Policy

Students at the School are provided with information about, and encouraged to use, multiple pathways to raise child safety incidents or concerns about or at the School. These include informal and formal ways, an 'anonymous' way, and through external child advocacy or child safety organisations.

Parents/carers, family members and other community members who have child safety concerns or who suspect that a child or young person associated with the School may be subject to abuse or other harm can contact the School's Senior Child Safety Leader, Adrian Farrer, by phoning 9854 3633 or emailing principal@trinity.vic.edu.au or, if the concern relates to the Principal, the Chair of School Council via schoolcouncil@trinity.vic.edu.au.

Students, parents/carers, family members and other community members can also raise child safety incidents or concerns through the School's Complaints Handling Policy, available on the School website.

Any person can also contact the Senior Child Safety Leader, or the Chair of School Council if they have concerns regarding the School's leadership in relation to child safety.

Communications will be treated confidentially on a "need to know basis".

If you believe a student is at immediate risk of abuse, call 000.

The School's practices are based on the following:

- compliance with mandatory reporting laws and obligations imposed by the criminal law to report a belief that child abuse may have occurred including reporting to the Victoria Police and relevant authorities;
- ensuring any situation is handled appropriately, and that any parties involved in an allegation of child abuse are provided with support and treated fairly and consistently;
- ensuring continuous review and improvement of processes and that they are easily accessible for all persons within the School community including an easy-to-understand process for students.

The School will support and assist children who disclose child abuse, or are otherwise linked to suspected child abuse, by:

- ensuring they have access to School support personnel, such as the Counsellors and/or Child Safety Officers;
- ensuring their situation is treated confidentially and with sensitivity;
- providing such other support or assistance as may be reasonable including due consideration for and necessary adjustments in the curriculum and co-curriculum programs.

Child Safety Human Resources Management

The School applies best practice standards in the recruitment and screening of staff, volunteers and contractors. Our recruitment procedures ensure that all reasonable steps are taken to engage the most suitable and appropriate people to work with children and young people. All staff and relevant volunteers and contractors are required to maintain a valid WWCC clearance.

The School ensures that staff, volunteers and contractors undergo child safety induction, and ongoing education and training at least annually as part of our commitment to safeguarding children and young people from harm. They are subject to regular supervision and performance monitoring while engaging with students. The School ensures that professional development programs for staff include child safety education and training programs.

Within these processes, the School gathers, verifies and records information about a person to assess their suitability for child-connected work.

Depending on the work to be undertaken, all or some of the following are required for checking and maintained on an ongoing basis:

- confirming identity e.g. driver's license or other photo identification (upon commencement);
- Working with Children Check (upon commencement and 2 months prior to expiry date);
- VIT teacher registration (upon commencement and annual registration renewals for the duration of the teacher's employment with the School);

The School has a comprehensive Risk Management program to assist in the identification, assessment and management of child safety risks in all School environments.

Record Keeping

The School has a Record Keeping policy and is committed to best practice record keeping. In accordance with our policy, and as required by our Policy and Procedures for Responding to and Reporting Child Abuse, all internal and external reports of child safety incidents and concerns, as well as any other responses by the School are recorded using the Child Safety Incident Reporting Form.

In maintaining records of child safety incidents or concerns, the School maintains confidentiality and privacy for students and families in accordance with federal and state privacy legislation and adheres to Public Record Victoria Recordkeeping Standards, including minimum retention periods.

Cultural Safety for Indigenous Students

The School (which includes the school boarding premises) is committed to establishing a culturally safe environment in which the diverse and unique identities and experiences of Aboriginal and Torres Strait Islander children are respected and valued.

The School has a well-established Dadirri Program and Dadirri Boarding House to support Aboriginal students. The School has developed a **Dadirri Program Handbook** which details the strategies and actions implemented by the School to ensure that:
